FEDERAL RELIEF REGULATIONS ANNOUNCED

Thirty Million Homeless While Yangtze Rages Ten Million Face Destitution When Flood Is Checked

Drop of Half an Inch Brings Ray of Hope to Terror-Stricken Inhabitants of Flooded Chinese Provinces—River Rises to All-Time Record Height

HANKOW, China, Aug. 18 (AP).—Flood-ravaged Hankow took heart tonight as the muddy-yellow waters of the Yangtze River dropped half an inch and members of the Nationalist Government's flood relief commission arrived by aeroplane from Shanghai.

John Earl Baker, adviser to the Ministry of Railways, who has been loaned to the flood commission and headed the party flying there, was told carefully prepared estimates indicated 30,000,000 people were homeless in the provinces of Hupei, Anhwei, Hunan and Honan, and 10,000,000 of these were destitute.

At least several hundred Chinese residents of Hankow perished today when the Big Chikistow dyke, protecting the city's western suburbs, collapsed, inundating the principal native industrial district, including big flour, cotton and silk mills. Although all foreigners in Hankow were reported safe, a majority of foreign women had left the city and more were leaving on every steamer. Chinese exodus from the stricken city also was under way today on a huge scale. Big river junkies were traveling what once were city streets, removing valuables from homes and warehouses.

SERIOUS EPIDEMICS
Epidemics were becoming more serious among the tens of thousands of refugees, who had nothing to drink but flood water, and cholera, dysentery and typhoid were ravaging the helpless Chinese.

THE above picture depicts the start of the fire which, in two hours, completely destroyed the Cadboro Bay Hotel yesterday afternoon. A high wind quickly spread the flames so that in three-quarters of an hour the entire structure was ablaze. Only forty feet away from the main wall was the Summer cottage, which was never out of danger until the blaze was finally extinguished.

FOREST FIRE OUT OF HAND

Descends on Elko, Wiping Out Churches and Homes Before Controlled

ELKO, B.C., Aug. 18 (CP).—A sudden change in the wind about midnight, Monday, hurried the monster forest fire burning through Phillips Canyon into renewed fury and before means could be taken to stop its inroads, it had descended upon the village of Elko. In a short time fifteen houses and two churches were completely destroyed. Failure of the wind gave the fire-fighters who had assembled a chance to check the conflagration, and shortly after 5 o'clock tonight the flames were controlled. Should another wind spring up, however, the remainder of the town would face destruction.

MOUNTAIN ABLAZE
Monday evening the canyon fire jumped the mountain east of Elko and continued to burn briskly in several places. At 7:30 p.m., back-firing was started on the north end of the mountain and close to the bridge on the old Elko-Fernie road. Shortly after an easterly wind sprang up, fanning the fire across the mountain. Within five minutes the mountain was ablaze.

Provincial Plan For Unemployed Relief Approved

Understanding Reached Between British Columbia Government and Hon. H. H. Stevens at Conference Yesterday—Await Ottawa Confirmation—Details at Early Date

COMPLETE understanding between Hon. H. H. Stevens, Federal Minister of Trade and Commerce, and the Government of British Columbia, on the Dominion Government's policy of assistance in the matter of unemployed relief, was reached here yesterday afternoon following a six-hour conference of the Federal Minister and the Provincial Cabinet.

Immediate commencement of relief work on Provincial Government proposals was assured following the round table discussion, but details of the plans will not be available until confirmation of the negotiations has been secured from Ottawa. This, it is intimated, is a matter of only a few days. No delay will be occasioned, as the tentative agreement between the two Governments was telegraphed to the Dominion capital immediately after the conference concluded at 6 o'clock.

ACCEPTANCE CERTAIN
Acceptance of the agreement is practically certain, as Mr. Stevens left for the Mainland during the evening, and several of the Cabinet ministers will be out of the city today, which indicates the Government here was not apprehensive of the outcome of the negotiations and that no further conference would be necessary.

Members of the Government are apparently satisfied with the arrangement, but no intimation has been given as to how far the Federal Minister was privileged to go in granting Federal relief on unemployment work in this province, but he had the utmost confidence of his colleagues at Ottawa to negotiate an agreement satisfactory to both parties which, apparently, he has accomplished.

Highway Construction Throughout Canada to Be Major Undertaking

Plague of Snakes Disturbs Peace of English Fishermen

SOUTH BENFLEET, Eng., Aug. 18 (AP).—A plague of snakes, many of them poisonous, has disrupted the peaceful life of this little fishing village. Men of the village, accustomed to a rigorous and dangerous life on the sea, have been confounded by the visitation of reptiles, which is without precedent here and is unexplained. Many of them, devoted churchmen and remembering the happy delivery of Ireland by St. Patrick in similar circumstances, have asked the community to special prayers to the plague in their prayers.

All Members of House Invited to Furnish Suggestions of Useful Works in Their Constituencies—Various Ministers to Supervise Programmes Under Their Departments

OTTAWA, Aug. 18 (CP).—General regulations governing the unemployment relief measures to be undertaken by the Government were issued today. An order-in-council setting forth the specific powers vested in the Minister of Labor in connection with these measures was given out, together with a statement by Hon. Gideon Robertson, Minister of Labor.

Train of Gold Left In Canada

OTTAWA, Aug. 18 (CP).—Canada had a credit balance of \$106,000,000 from the tourist industry in 1930. That figure represented the difference between the money spent abroad by traveling Canadians and what was distributed in this country by residents of United States, Great Britain and other nations of the world who were in Canada, leaving a golden trail in their wake. In the previous year, Canada had a credit balance from this industry of approximately \$188,000,000.

BUDGET PLAN IS DRAWN UP

Big Five Complete Definite Programme to Overcome Threatened Deficit

LONDON, Aug. 18 (CP).—Sitting all day at No. 10 Downing Street with only a brief interval for lunch, the big five of the Labor Cabinet tonight had completed a definite programme to be followed in order to balance the budget; to overcome the threatened deficit of \$600,000,000.

SECRET AS YET
What the proposals are, remains a strict secret. It seems to be assumed tonight they will not involve abolition of any social services. But the steps that are to be taken, drastic though they will probably be, remain known only to the leaders in the Cabinet and a few trusted advisers.

Tomorrow, Prime Minister Ramsay MacDonald and Rt. Hon. Philip Snowden will place the Government's plans before the full Cabinet. If the Cabinet approves them, which seems to be a foregone conclusion, critical steps will be taken on Thursday.

STUDENT FLYER DIES OF INJURIES

MONTREAL, Aug. 19.—George Harvie, thirty, student flyer, died in hospital early this morning from injuries received last Sunday when he crashed with a metal plane near the Cartierville airport.

Harvie, a Montrealer, fractured his skull, broke a leg and received internal injuries when the plane fell a distance estimated at 1,500 feet.

FOOD SUPPLY AT BARROW MEAGRE

Four Supply Ships Locked in Ice—Citizens Forced to Ration Provisions

POINT BARROW, Alaska, Aug. 18 (AP).—With supply boats held away by the Arctic ice pack and winter rapidly approaching, residents of this northernmost settlement of Alaska today were on daily rationing in an attempt to stretch their meagre food supplies over as long a time as possible.

Four boats—the Patterson, Baychimo, the coasts cutter Northland and the Holmes—were locked along the coast, fifty miles south of here, unable to crash through the ice barrier as the seventh week of southerly winds held the pack close inshore.

The food shortage was getting critical and residents were preparing to send dog teams overland to the boats if no change came within a few days.

SET FIRE IN CHURCH

MEXICO CITY, Aug. 18 (AP).—The altar and paintings in La Pastora Church in the city of Vera Cruz were badly damaged yesterday, when an underhanded person threw gasoline-soaked waste into the building and set it afire. There have been several similar incidents in Vera Cruz Province since the signing of the anti-religious law in June.

CROSS-BORDER TRAVEL GROWS

Number of Motoring Tourists Compares Favorably With Other Years

By CHARLES LYNCH
OTTAWA, Aug. 18.—Motor tourist travel across the international border is now at its height and continues to show an increase over that of 1930. Despite prevailing business conditions, the flow of travel to Canada compares favorably with other years.

THIRTEEN DIE IN ENGLISH STORMS

Dozens of Houses Submerged in Winchelsea—Two Drowned Trying to Rescue Child

LONDON, Aug. 18 (CP).—At least thirteen deaths are reported following serious gales which have spread havoc across the English coast. In the bungalow town of Winchelsea Beach, Sussex, dozens of houses have been submerged by great waves which swept over the sea defences into low-lying marshland. Four hundred people sat up last night watching the waves pound their homes, and wondering whether any would be left after the tide had run its course.

A sailing boat was swamped off Spithead and three occupants were drowned. Two men rushed into the sea at Margate trying to save a child, and were caught by a wave and both drowned.

VALUES SET FOR DUTY PURPOSES

Grapes Set at Five Cents a Pound—Bacon and Ham Included in List

OTTAWA, Aug. 18 (CP).—Valuation for duty purposes have been set on a number of articles by Hon. E. B. Rykman, Minister of National Revenue, it was announced today. These include grapes, bacon and ham.

Grapes henceforth will be valued for duty at 5 cents a pound, the weight of the package to be included. Cooked ham or bacon will be valued at 50 cents a pound. Bacon or ham, cured, pickled and smoked, will be valued at 25 cents a pound, and when cured, skinned and boned, 35 cents. Other types will be valued at 24 cents a pound. The values fixed do not apply to goods purchased before August 18 and in transit to Canada on or before August 20.

Elected Dean of Medical College

WINNIPEG, Aug. 18.—Dr. A. T. Mathers, provincial physician, was elected dean of the Manitoba College of Medicine tonight at a meeting here of the faculty of the college. At present, the physician is in charge of the psychopathic ward of Winnipeg General Hospital, Dr. Mathers was born at Neepawa, Man., and is a graduate of the University of Toronto. He was president of the Winnipeg Medical Society in 1929.

MOTOR TROUBLE CHECKS FLIGHT

Lindberghs Forced Down on Way to Japan—Delayed Two Hours

TOKIO, Aug. 19 (AP).—Forced down by motor trouble at Avatuchi Bay soon after their takeoff from Petropavlovsk, Kamchatka, for Nemuro, Japan, a message to the Communications Department here said Colonel and Mrs. Charles A. Lindbergh took the air again at 10:45 a.m. today. Tokyo time (5:45 p.m. Tuesday, P.S.T.).

The Lindberghs left Petropavlovsk, Kamchatka, at 8:45 a.m. (3:45 p.m. Tuesday, P.S.T.), but had flown only a few miles toward their destination, when they were forced to descend upon Avatuchi Bay.

The motor trouble, the nature of which could not be learned immediately, apparently was not of a serious nature, for they were on their way again within two hours. The 897-mile flight down the southeastern coast of the Kamchatka Peninsula and along the Kurile Island chain to Nemuro, on the northeastern tip of Hokkaido Island, was expected here to require about eight hours.

WILL NOT FORCE PROVINCIAL VOTE

Progressives and Independents in Saskatchewan Assure Conservative Government of Support

REGINA, Aug. 18.—Progressives and Independents in the Saskatchewan Legislature will not force a general election until 1934, unless a direct nonconfidence motion is passed by the Assembly before then. Assurance of this fact has been given the Government by the eleven Progressive and Independent members, who hold the balance of power in the province, and in a reply to statements made by J. O. Gardiner, leader of the Opposition, in which he suggested the Progressives might decide on an election next Summer.

Spokesman for the two non-parties was Hon. A. C. Stewart, who represents them in Premier J. T. M. Anderson's cabinet as Minister of Highways.

SCHNEIDER CUP RACER DROWNED

Lieut. G. L. Brinton Meets Death When Speed Plane Plunges Into Sea

CALSHOT, Eng., Aug. 18 (AP).—Lieutenant G. L. Brinton, British Schneider Cup speed pilot, was drowned here today when his crack S-6 plane, one of the ships which set records in the Schneider Cup race in 1929, plunged into the sea. Lieutenant Brinton was imprisoned in the cockpit and drowned before he could be released.

The accident happened as dusk fell over the race course in the Solent. The plane had remained moored to its pontoons during the afternoon, awaiting improvement in the weather.

Late in the day a fellow officer went aloft and gave a signal to Brinton that conditions were all right.

Fire Razes Beach Hotel at Cadboro Bay; Guests Safe

Forty Thousand Dollar Structure Burns to Ground While Scantly Attired Guests Watch From Beach—Volunteers Brave Flames to Recover Effects

THE fire, which started in the northeast corner of the roof about 2:15 p.m., had razed the structure by 4:30 p.m., the shingled roof and walls quickly becoming enveloped in a mass of flames.

Guests, who were already in the hotel, quickly secured their effects and fled from the building, while others less fortunate were able to rescue only a few pieces of apparel, which was cold comfort to those who had been in bathing and were compelled to watch the hotel burn as they shivered in a stiff gale blowing in from the sea.

PROPHETIC SWOONS
No one was injured, but Mrs. Ida O. Hale, proprietress, formerly of Moose Jaw, swooned in the lounge room when the first alarm was given. She had been in ill health and the excitement of guests rushing from their rooms to safety was too great a strain for her.

Mrs. Hale bought the hotel three years ago for \$40,000 and had the building insured, as far as it could be ascertained, for only \$20,000. Four thousand dollars in insurance money covers any loss in furnishing. The building itself is assessed for tax purposes only at \$13,000, but, as the purchase price indicates, it was worth considerably more.

Just how many guests were staying at the hotel was not known.

SAY REPARATIONS MUST BE REVISED

Wiggin Committee Representing Ten Leading Banking Nations Makes Report After Close Study

BASEL, Switzerland, Aug. 19 (AP).—The Wiggin committee of bankers, representing ten leading banking nations, announced this morning that European political disputes will have to be straightened out and Germany's reparations payments revised.

The committee's announcement was made in a report summarizing its study of Germany's financial situation.

"We therefore conclude," the report said, "by urging most earnestly upon all governments concerned that they lose no time in taking necessary measures for bringing about such conditions as will allow financial operations to bring to Germany, and thereby to the world, sorely needed assistance."

The report is the result of eleven days of study spent by the committee here.

Steel Plant at Seattle Burned

SEATTLE, Aug. 17 (AP).—A fire of undetermined origin destroyed the plant of the National Steel Construction Company here early today with a loss estimated by John Wilson, owner, at between \$85,000 and \$100,000. Twenty-five men were put out of work.

UNITED STATES GIRL SWIMS THE BOSPHORUS

ISTANBUL, Turkey, Aug. 18 (AP).—Anita Greer, twenty-two-year-old daughter of United States Ambassador Joseph C. Greer, today swam the nineteen miles of the Bosphorus Straits from the Black Sea to the Sea of Marmora in five hours.

She had been training for the feat since she tried it and failed because of adverse winds and choppy seas last year. Today she finished the difficult swim apparently with plenty of reserve strength.

CROSS-BORDER TRAVEL GROWS

By CHARLES LYNCH
OTTAWA, Aug. 18.—Motor tourist travel across the international border is now at its height and continues to show an increase over that of 1930. Despite prevailing business conditions, the flow of travel to Canada compares favorably with other years.

At Niagara Falls, Ontario, more than 700,000 automobiles crossed the Lower Arch and Fallsview Bridges and the Queenston Bridge from July 1 to 8, 1931.

HEAVY INCREASE
A heavy increase in American tourist travel is reported from Windsor, Ont. Vehicles entering and leaving via the Ambassador Bridge, the Detroit-Windsor tunnel and the ferry, in the six months ended June 30, 1931, were 67,000 more than were reported for the same period in 1930. A total of 46,200 automobiles were reported inwards through Walkerville, Ont., in the three months ended June 30, 1931, and 39,200 automobiles were reported outwards.

July 4 proved to be one of the busiest days ever for customs officials at the Peace Bridge, connecting Port Erie, Ont., with Buffalo, N.Y. 27,312 cars inwards and outwards having been handled. Traffic over this bridge in the three months, April, May and June, 1931, amounted to 688,572 cars, against 711,031 for the corresponding period last year.

BARRIERS MUST ALL BE BROKEN

Bishop of London Gives Views of World's Five Great Problems

VANCOUVER, Aug. 18.—Imbue all nations with a spirit of Christianity and break down the barriers of all nations is the only solution for the international difficulties now confronting the world, declared Rt. Rev. Arthur P. Winnington-Ingram, Bishop of London, in the course of a luncheon address before members of the Canadian Club here today.

His Lordship discussed five topics, depression, disarmament, the Russian situation, the color problem, and the cancellation of war debts. These, he stated, are the five principal problems before the world today, and only if the spirit of Christianity could be introduced in connection with them could any solution be reached.

BRITAIN ALONE DISARMS

In his appeal for a clean sweep of all armaments throughout the world, the speaker pictured the injustice of war of the future, and said that with all the talk of disarmament Britain is the only country that has reduced her armaments to any great extent. He paid a tribute to the excellent work of the League of Nations in its efforts to create a better understanding among the nations.

On the question of the color problem the speaker said that only those who lived in the United States realize the seriousness of this problem. He stated also that a vital problem is the huge population of Japan with seventy-five millions of people densely crowded and no colonies to absorb the surplus population.

HIGHWAY CONSTRUCTION THROUGHOUT CANADA TO BE MAJOR UNDERTAKING

Continued from Page 1

"The Federal Government proposes and offers to share in the cost of the construction of the Trans-Canada Highway on the basis of bearing 50 per cent of the cost thereof. Each Provincial Government will be required to define by order-in-council the route and the point of contact with the adjoining provinces. The Dominion Government proposes also to subsidize substantially in the cost of maintenance. Other highways wholly within the province may also be assisted as to construction costs on the basis agreed upon with the provincial authority, and as need and circumstances justify.

MUNICIPAL IMPROVEMENTS

"A third feature of the Government's proposals is that any municipality desiring to carry on local improvement works of any sort with Federal and provincial aid shall submit its proposals in connection therewith to its Provincial Government, they agreeing together what portion of the expenses entailed thereby would be borne by the municipal and provincial governments respectively. The Dominion Government is being invited to confer with the Dominion Minister of Labor respecting both these provincial and municipal undertakings.

"Such procedure," continued Senator Robertson, "is necessary because of the varying intensity of unemployment in different parts of the Dominion. All provinces have already been asked to supply as promptly as possible—and not later than the end of the present month—a statement showing registrations of the unemployed persons, and estimates of the number of unemployed in each province.

EIGHT-HOUR DAY

"The Federal Government universally suggests that the well-regulated eight-hour day should be respected by all parties, and that a maximum day of eight hours should be given all relief undertakings. Except for cases shown, satisfactory to the Minister of Labor, any variation from this principle may be justified.

"The provincial and municipal authorities will fix the rates of compensation to be paid on works initiated by them, the Federal Government fixing the wage rates only on purely Federal undertakings. All contracts are to provide that materials used shall be the product of Canadian mills, factories and labor, wherever available. The Government desires that hand labor should be used to the maximum possible extent.

PREFERENCE FOR CANADIANS

"The rates they will fix shall not exceed those prevailing for the class and kind of work in the district where that work is performed, providing that such rates are fair and reasonable. In work let by contract, preference shall be given to Canadian construction firms established and operating in Canada prior to January 1, 1931.

"In his statement, the Premier emphasized that construction of the transcanada highway would be one of the major undertakings in the way of providing relief work. The Dominion would co-operate with the provinces in the project, he said.

MINISTER WILL DIRECT

"The Minister of Labor will direct as to Federal inspection and supervision necessary, and the Federal Government will bear the costs thereby involved.

WOMAN BELIEVED KILLED IN CRASH

Auto Plunges Over Fraser River Bank—Husband Found in Semi-Conscious Condition

LILLOOET, Aug. 18.—Mrs. M. Fraser, of Cassidy, is believed to have been killed when an automobile driven by her husband, in which she was a passenger, hurtled over the Ostrander Hill bank of the Fraser River, early today.

The accident occurred about 11 a.m., but it was not discovered until 5 p.m. when Indian Samson Fraser lying on the bank of the river, below the hill, his wrecked car lying nearby, totally destroyed by flames. Fraser had been helpless, in a semi-conscious condition since the accident, and was unable to tell police and searchers what had happened to Mrs. Fraser.

It is believed that the car was burned to death in the wreck of the car or was precipitated into the river and drowned.

FIRE RAZES BEACH HOTEL AT CADBORO BAY; GUESTS SAFE

Continued from Page 1

At the hotel where the fire broke out is not known, as the guest book was burned when the flames destroyed the office section.

LARGE SUMMER RESORT

It is estimated that between fifteen and twenty rooms were occupied at the time. There were thirty-two guest rooms besides the lounge, dining hall, kitchen and other rooms so that the hotel would be about half filled. Most of the guests were from Vancouver and Seattle, it was learned.

A. H. McFarlane, of 1335 Twelfth Avenue West, Vancouver, first discovered the fire and turned in the alarm. Some delay was caused, as it was difficult to get a telephone line in use, and when the fire department truck arrived the flames had gained control of the entire floor.

WIND FANS FLAMES

A strong wind quickly fanned the flames so that by 3 o'clock, three-quarters of an hour after the fire was first noticed, the entire building was ablaze.

When Richard Sewell, municipal clerk, arrived for duty, he arrived, he issued orders to protect adjacent Summer homes and prevent the spread of fire to nearby buildings. He then returned to the hotel at the time that nothing could be done to save the building, as there was only 100 pounds' pressure of water.

CITY TRUCK RESPONDS

Even this supply of water, however, appeared to be insufficient, and when the flames leaped across space and ignited a group of fir trees a call was put in to the Victoria fire department, which sent out its pump truck and increased the pressure. With two powerful streams of water available, the cause of the fire is believed to have been due to defective wires. This theory is based chiefly on the fact that the fire started in the lower part of the building, and had early in the day smelled smoke in her room, but had not connected it with smoldering timber.

The fire burned for some time, but she said the radio had cracked considerably, whereas the day before there had been nothing noticeable wrong with the instrument. She believed that the instrument led to the belief that insulation on some electric wiring had become frayed and caused a short circuit, thus starting the fire.

DARING VOLUNTEERS

Neighboring residents and campers, daringly entered the building and rescued as much furniture, clothing and bedding as possible, but the quick descent of flames to the lower floors soon made the work impossible. A grand piano, several beds, chairs, dressing tables, trunks and valises were rescued, however, before the volunteers were forced back by the intense heat.

The fire burned furiously at the rear of the hotel, and firemen worked hard to keep this portion under control. The fire broke out in the lower part of the building, and had early in the day smelled smoke in her room, but had not connected it with smoldering timber.

HOUSE ENDANGERED

One house, only forty feet from the rear wall of the hotel, was occupied by Mr. and Mrs. McFarlane, of Vancouver, and for half an hour was never out of danger as long as the fire burned in the hotel. The fire to the tree separating the hotel and the house. A steady stream of water was kept on the house.

END CONSTIPATION WITHOUT DRUGS

Doctors know that half the cases of constipation are caused by eating ordinary bread. It is simply a type of regular daily life in a delicious, crisp, crunchy form. It is made of pure, crushed whole grain rye, rich in vitamins and phosphorus which bodily well-being depends. It stimulates the digestive process, and the elimination of waste.

Start the Rytiva habit today. Get a large container (40-50 slices) 35c at any grocer, and eat it instead of ordinary bread. Soon, very soon, you'll feel the difference. Rytiva is a better, faster, brighter in every way. Constipation, malnutrition, obesity and indigestion are practically unknown in homes where Rytiva is the regular daily bread.

URGES BACK TO LAND MOVEMENT

E. C. Mayers, K.C., Advocates Agricultural Means to Relieve Unemployment

Advocating a back-to-the-land movement as a means of relieving national unemployment problems, E. C. Mayers, K.C., addressed a meeting of the Victoria Citizens' Unemployed Relief Fund committee yesterday morning.

In outlining his proposal, Mr. Mayers stated it might be possible to clear off logged over areas for agriculture and establish farms on which the present unemployed could be installed. It appeared, he said, that industry would not be able to absorb men who were now out of work. He characterized the present economic situation as a "crisis" from any previously occurring. He believed, by utilizing farms, men would soon become self-supporting, and declared one way of promoting the plan would be to obtain the support of service clubs and other public organizations.

NATIONS THE CAUSE

"We are all waiting for prosperity to return next year. But this is the question of 'going to' he continued. "Our rulers always point out that previous crises have always ended happily. But this crisis has no analogies in previous situations, which were caused mostly by one section of commercial enterprise overrunning itself. This time it is not individuals which are the cause, but nations. In reading public accounts one would wonder if any nations are solvent. Never before have there been so many nations carrying debts they cannot maintain or undertake such large expenditures.

FARMING CONDITIONS

"There is a second and more fundamental reason," Mr. Mayers said. "We are in the early stages of an agricultural revolution. Farming has reached the stage where it is a large scale industry, but today taken all round, farming is bankrupt. I don't think it is an exaggeration to say this. The farmer cannot pay for what he has bought, cannot pay taxes and cannot maintain his mortgages. So he is slowly going back to mixed farming, which will support him."

Other means of bettering conditions were suggested by Mr. Mayers, such as the reduction of the national debt and curtailment of expenditures.

Following his address, a vote of thanks was tendered by Sir Frank Barnard and Mayor Herbert Anscomb. The meeting was attended by members of the relief fund committee.

UPSETS FEATURE WASHINGTON GOLF

Defending Champion Defeated in First Round—Mrs. Guy Riegel Advances

SPOKANE, Wash., Aug. 18 (AP).—Newly crowned champion of the Washington women's golf championship after a mixture of brilliant and disappointing play today.

Mrs. Guy Riegel, Spokane, medalist in the qualifying round yesterday, came through her first match by defeating Mrs. G. B. Butterworth, Seattle, 3 and 1.

It was a day of upsets, with poor performance by those who figured in the money by pretournament forecasts and brilliant play by dark horses. Mrs. G. R. Johnson, Seattle, defeating champion, was eliminated. Mrs. G. C. Borch, Spokane, a favorite for the final, was defeated by Mrs. S. P. Nielsen, 3 and 2, by her fellow townswoman, Mrs. E. Finn, of Seattle, who was the upset of today's play.

Another surprise was the elimination of Mrs. C. F. Lindley, Seattle, by Mrs. E. L. Powell, Spokane, 3 and 1.

TO ANNOUNCE WORK

Hon. R. W. Bruhn, Minister of Public Works, it is understood, will be ready to announce some of the works to be undertaken as soon as the conference plan is confirmed. The minister went into the conference fully armed with the Government's works proposed, but no hint was given last night as to which were approved by the Federal Minister. These items will probably be announced before the coming week-end.

PRASE MR. STEVENS

Members of the Provincial Government accord the highest praise to Mr. H. Stevens for the manner in which he conducted the proceedings on behalf of the Federal Government. The discussions were amiable throughout, and Mr. Stevens had an appreciation of the understanding of the needs of the Province in the problems with which it is faced by the increasing number of unemployed men, without losing sight of the purpose of his mission. Cloaked with the fullest powers, he carried on negotiations with the Province on behalf of the Dominion Government. Mr. Stevens held the unique position of being one of a few ministers in the history of Federal Government administrations to be given powers of such magnitude and involving expenditures of an emergency nature. Mr. Stevens had the fullest confidence of the Provincial Cabinet and it is said, it was greatly due to his knowledge of the problems of British Columbia that the conference was able to finish its work without unnecessary delays.

Confirmation of the contract will be eagerly awaited in all sections of the province and will go a long way in relieving the stress under which many of the unemployed at present find themselves.

UNEMPLOYED TOTALS

Official figures of unemployment registrations in the province, received by the Government up to 6 o'clock last night, had reached a total of 24,552, of whom 4,197 are transients, 13,371 municipal, and 2,984 provincial. Of the total, 4,651 are non-British. Those registered under the head of provincial are registrants outside of organized territories. The largest percentage of the unemployed are centred in the towns and cities of the province, with Vancouver heading the list with 11,133.

Victoria has 832 registered now. The low figure for Victoria is due to the fact that a considerable amount of relief work is being carried on by the municipality and, as stated by registration officials, only those "actually out of work" are permitted to register as unemployed.

PRINCE FLIES TO BIARRITZ

BIARRITZ, France, Aug. 18 (AP).—The Prince of Wales, who took off from Sunningdale, England, this morning, arrived at the local airport tonight after a pleasant flight. He will spend a holiday here. The Prince stopped at Tours and Bordeaux en route.

QUITO, Aug. 18 (AP).—Diplomatic relations between Colombia and Ecuador, severed in November, 1925, were resumed today. The efforts of the Argentine Government as arbiter were credited with having paved the way to settlement of the dispute.

FOREST FIRE OUT OF HAND

Continued from Page 1

The whole mountain was ablaze, with flames reaching hundreds of feet into the air and stretching across the Elk River.

Fanned by the high winds, the flames spread rapidly and before long, spot fires were too numerous to be managed.

POWER PLANTS MENACED

East Kootenay Power Company's plants were in grave danger, and crews were dispatched to protect them. Elko residents, realizing the grave danger to their village, stretched 1,000 feet of hose about the residential sections.

It was about midnight that the flames moved north directly opposite Elko and ignited several homes. Although every means was taken to check the flames, the crews were powerless. Furnishings went with most of the homes and several families are destitute.

GIVE IDEAS ON CITY PLANNING

Scores of Citizens Send in Suggestions for Beautification of Capital

The plea of the Capital City Beautification Committee for suggestions to aid in formulating a general plan of improvement of the city is being heeded by the citizens, and scores of ideas have been received by the committee during the past week. These include suggestions for improvement to the beaches, parks, streets, tree planting, swimming pools, and many other forms of beautification.

Elk Lake has received considerable attention from the contributors of suggestions. The latest is to convert a section of the Elk Lake property into a golf course.

One writer suggests that the reservoir at Beaver Lake, which has fallen into disuse since the Sooke water was brought to the city, should be made into a stadium for games.

A plea is also made for the golf course at the lake and also that the C.P.R. should be encouraged to build a chalet there.

Feeling that warmer water for sea bathing is a necessity, a resident suggests to the committee that there should be at Cadboro Bay a large pool that would provide this. He says there are several acres of land back of the bay that are flooded only at very high tide. These could be made into a pool, taking the surplus earth and clay for the raising of the land round about the pool. The work could all be done by day labor, and would afford a means of relieving the unemployment situation that exists here.

JAPANESE BARON DIES

TOKIO, Aug. 18 (AP).—Baron Takachi Kiki, Japanese Minister to the United States from 1884 to 1886, died here early today of nephritis. He was seventy-nine years old. Baron Kiki was best known in his own country for his educational work and as an expert on Japanese art.

MAGISTRATE SHAW ILL

VANCOUVER, Aug. 18.—Magistrate H. C. Shaw, veteran police court presiding officer, is confined to his home following a nervous breakdown. He has been in indifferent health for some time. Deputy Magistrate George McQueen is taking his place on the bench.

CHANGE DUE IN BRITAIN

T. H. Kirk, M.P.P., Believes Electors Will Return Conservatives to Power

T. H. KIRK, M.P.P.

"When the opportunity is afforded the electors to go to the polls in Great Britain, a change will be made in the Government," is the opinion expressed by T. H. Kirk, M.P.P., of Vancouver, who has just returned from the Old Country. During his stay there he toured not only England, but also Scotland and Ireland. The impression forced upon him all over was that the country is ripe for a change of Government.

The Conservatives will win the election, Mr. Kirk believes, by a large majority. The Liberal party is well nigh wiped out and the country is anxious to oust the Labor Government from power. There is a demand for a strong administration which, it is felt, the party led by Rt. Hon. Stanley Baldwin will give the country.

STRONG OPTIMISM

Mr. Kirk confirms the opinions expressed by other visitors to the Old Country that there is a feeling of strong optimism prevailing in the business section. At the same time there are troubles to be overcome before the country can receive its proper share of trade.

The sole system is being abused and there will have to be changes made in connection with the unemployment situation by a new Government taking over the administration, Mr. Kirk states.

Mr. Kirk, accompanied by Mrs. Kirk, arrived here yesterday afternoon from Seattle, after coming across the continent through the United States. They left for Vancouver early in the afternoon. Leaving there early in May, Mr. and Mrs. Kirk went to England to visit their daughter, who resides there.

SEA APPEALS TO PRAIRIE YOUTH

Maritime Provinces Not So Deeply Interested in Naval Service, Says Deputy Minister

HALIFAX, Aug. 18.—J. G. Desbarats, deputy minister of National Defence, arrived today on the Ocean Liners, the Canadian National Railway, to look into naval and military matters at Halifax. Speaking of the new Canadian destroyers which recently arrived from England, where they were constructed, he stated that English naval officers, as well as others, spoke highly of their accomplishments. They are the best work in naval construction of that type and are easily away in advance of any ship of their class afloat.

In the matter of naval recruiting, Mr. Desbarats said they have more applications for enlistment than could be placed, and strangely enough, the greater number came from the Prairie Provinces. Asked as to the reason for this, he replied that those living by the sea and fishermen usually did not enlist, but that it is inland where the sea creates the greatest appeal to adventure.

Farmers' Wages Not Attractive

REGINA, Aug. 18.—Farmers in Saskatchewan are offering from board alone up to board and \$5 monthly in wages for help, with very few takers so far, according to a bulletin issued by the Provincial Department of Railways, Labor and Industries. The bulletin states that publicity being given to pending relief works is responsible for this condition, unemployed men preferring to wait for the latter before taking farm work.

SPLIT POINT AT FORT AND COOK CREATES DELAY

Traffic was held up temporarily during the dinner hour rush on Fort Street, between 4:30 p.m. and 5:30 p.m. yesterday, when a Foul Bay street car "split points" on the out-bound trip.

The front wheels turned the corner but the rear trucks went straight ahead, thus locking the car. A crew of men, with the aid of another street car, pulled the disabled car back on to the tracks, while the inspector downtown straightened out time-table schedules so that by 6 p.m. all lines were operating normally.

Police kept motor traffic moving, but interested pedestrians crowded around to see the B.C.E.R. maintenance crew place the heavy car back on its right tracks.

GUNMEN SENTENCED TO JAIL AND LASHES

WINNIPEG, Aug. 18 (CP).—Sentences totaling fifty-seven years and fifteen lashes were meted out to three youthful gunmen by Magistrate Noble in police court here today. The trio, John Young, alias Conlon; John H. Scott; and Stanley Scates, were convicted of four hold-ups during the past few weeks, including the robbery of a North End branch of the Royal Bank of Canada, August 5, when they escaped with \$1,000.

CAPT. C. D. BROWNE VISITS VICTORIA

Says Kaye Don Will Bring Motorboat Miss England II to Canada for Toronto Races

CAPT. C. D. BROWNE

Captain C. D. Browne, general manager for Canada of the all-British firm of G. Wakefield & Company, Limited, manufacturers of Castrol motor oil, is a visitor to the city from Toronto. Captain Browne is making one of his periodic trips of inspection of the company's branch offices and distributor agents throughout Canada. While on the coast he is conferring with A. B. Stacey, Western sales manager.

"I am greatly impressed with the vigorous efforts that are being made in British Columbia to promote the support of home industries and the encouragement of an enlargement of trade within the British Empire," stated Captain Browne.

"I can see particular value in a more intensive trade between Canada and Great Britain," added Captain Browne. "Canada, and especially Western Canada," he said, "should be closer to England. If England were to regard us as the market for Canada's wheat, lumber, livestock and minerals, then Canada must do her share by buying the products of British firms."

COMING TO CANADA

Captain Browne announced that Kaye Don, who holds the world's record speedboat trophy, is bringing the motorboat Miss England II to Canada and will attempt to break his own world's record of 110 miles per hour at Toronto, September 11, during the Canadian National Exhibition.

Prior to coming to Canada, Kaye Don will race Gar Wood at Detroit, on September 5, 7 and 8, for the British International Trophy, which has been held in America for the past sixteen years.

Captain Browne, who is acting as agent for Don, said that they hope to America, says that they have every hope of Miss England II achieving a double victory.

STEPPED ON A CROCODILE

Shell Aviator Had Interesting Experience in African Papyrus Swamp

Five hours floundering for his life through a crocodile-infested swamp into which he was forced to descend, was the thrilling wedding-eve experience of a Shell Company's pilot in Africa last month. The aviator, Flight-Lieutenant Vines, was traveling from Moarara to Entebbe when engine trouble forced him to land in a papyrus reed swamp near Lake Victoria. The machine turned turtle and became deeply embedded in mud. It was a complete wreck.

Vines, though injured in the head, managed after great difficulty to extricate himself. Realizing that he might be many days before he was spotted by searchers and also that it would be impossible for any one to come to his aid, he decided to try to make his way out of the swamp. He bravely commenced the perilous journey across the swamp, firing his revolver from time to time in order, if possible, to attract attention.

UNCERTAIN FOOTING

The papyrus was so thick that sometimes he was able to progress only by crawling at full length along narrow water courses. Occasionally he sank to his neck in the slime. Once he thought he was on firm ground, but suddenly it moved beneath him—it was a crocodile!

BRUISED BUT NOT HURT

Eventually, after his five hours struggle, he staggered out, exhausted and almost naked, to some native huts where the local chief provided him with clothes and drove him to Kampala. The aviator was bruised but not hurt.

It took 500 natives, carrying spears and rattles on account of the dreaded crocodile, five days to reach the abandoned aeroplane.

The aviator's bride, later married, was at the time a guest of the Governor of Kenya.

A few weeks ago Vines came down in the same machine on the northern frontier of Kenya. On that occasion he had a passenger with him. Both were isolated in the desert and had to exist on dates for three days before being rescued.

What Today Means

"LEO"

If August 19 is your birthday, the best hours for you on this date are from 11 a.m. to 1 p.m., from 5 p.m. to 6:45 p.m., and 11 p.m. to midnight. The danger periods are from 7 a.m. to 9 a.m., and 2:30 p.m. to 4 p.m.

Prospects from a material standpoint are not encouraging, from the astrological omens for August 19. The depression, sense of nervous exhaustion and futility, experienced during the day will disappear after 9 p.m., and life will once more seem worth living.

An over-sensitive nature will make life difficult for the child born on this August 19. It will lack "push," and will need considerable moral support, to encourage it on to achievement. It will be affectionate, and will wilt under harsh treatment. A pleasing manner will endear it to one and all.

Born on August 19, you have considerable fire in your nature. You are not in the least aggressive or pugnacious, but your aliveness, vigor and enthusiasm are quickly sensed. You have intellect allied to temperament. Your emotions are not so harmonized in as to kill romanticism and sentiment. Life itself, not a mimicry of life, satisfies you.

You are fond of show and ceremony, and proud of your own attainments and accomplishments. With people, you are taken in by external appearances too much to be a reliable judge of real character.

Not of a suspicious nature, you are loath to look for vicious traits in others. You are extremely loyal to your friends, and stick up for them through thick and thin. You are more than a fair weather friend, and are a real solace and help in time of need.

You do not exhibit any marked talents, but you can get an apt hand to a number of things, and win success. You enter into things with a winning attitude of mind, and failures do not knock you out, or keep you down. A certain amount of physical labor or exercise is essential to one of your temperament—your energy needs to be used up. In money matters, you are cautious and calculating, without being stingy. You do not intend to be caught unprepared when your rainy days arrive.

Names Chosen For Baby Son Of Governor

MONTREAL, Aug. 18 (CP).—As a tribute to his royal godfather, and commemorating the great Canadian river, on the shores of which he was born, the infant son of Their Excellencies the Governor-General of Canada and Lady Beasborough, born here last Thursday, will be christened George St. Lawrence Neufville, the latter name being that of the family of Her Excellency.

Announcement to this effect was made this morning from "Ravenscrag," temporary home of the Governor-General in Montreal. Providing Lady Beasborough's health has been sufficiently restored by that time, Their Excellencies will return to the viceregal residence, Rideau Hall, in Ottawa, during the second week in September. The christening will take place immediately after their return.

It was further announced today that because His Excellency has undertaken an official tour of the Maritime Provinces, commencing September 28, time will not now permit of his going into residence at the Citadel, Quebec, during September, as he had hoped to do.

ARCTIC EXPERT FAVORS PLANES

Captain Bernier Thinks Canada Should Maintain Air Service to Europe

MONTREAL, Aug. 18 (CP).—Skipper of his own ship at the age of seventeen, and for sixty-three years a master on his own deck, Captain Joseph E. Bernier, one of Canada's foremost Arctic navigators, now turns to the air as the practical means of communication across the top of the world.

"I don't see any reason at all why an air service should not be maintained from Canada, across Greenland, Europe," he said today. "But I am against any service by airship. Airplanes are better suited," he added.

"Greenland, you know, is pretty high," he said. "It's a plateau and an airship would have to go 10,000 feet to clear it. Then again, when the airship would have to come down, it would have to lose gas. And if it came too low the fog (and there most generally is fog around there), would congeal on its slides; so it wouldn't be safe. Airplanes might have to stop at gas caches every so often, but they wouldn't be bothered so much by condensation. They would be safe."

OTTAWA VISITORS GREETED LOCALLY

Dr. and Mrs. Duncan Campbell Scott Honored at Reception for Authors' Association

In honor of Dr. Duncan Campbell Scott, of the Department of Indian Affairs, Ottawa, and Mrs. Scott, Mrs. J. Angus, secretary of the Island Authors' Association, entertained last evening on behalf of this organization at an informal reception at her home on Earl Street, Fairfield. Mrs. Frances Ebbs Canavan, president of the association, assisted the hostess in receiving, and welcomed Dr. Scott as the newly-appointed president of the national branch of the Canadian Authors' Association. The entire membership, she said, was unanimous in its approval of his appointment to the office. To Mrs. Scott she presented a corsage bouquet with a few additional words of greeting.

The programme was delightfully informal, and guests had ample opportunity to chat with the new national president and hear his views on writing and other matters. In the course of the evening various members of the local organization responded to invitations to read some of their own verses, and among those who contributed to this part of the programme were Mrs. Francis Ebbs Canavan, Mrs. Eugene Perry, Marian Isabelle Angus, Mrs. Mary H. Rathorn ("Jeanne Valdes"), Mrs. Caroline Henderson, Donald Fraser and Lewis Wharton, author of "The Songs of Carriage" collection.

Enjoyable vocal solos were also interspersed through the programme. Mrs. Lewis Wharton, accompanied at the piano by Mrs. Leo Hayes, of Kelowna, sang several of A. A. Milne's songs, including "Missings" and "Market Square."

About 11 o'clock refreshments were served in the dining-room.

Mrs. Ebbs Canavan presiding at the tea urn. Bronze and yellow dahlias centred the table and were used elsewhere in the decorations of the room, and the drawing-room was effectively decorated with coral gladioli and antirrhinums. Among the thirty guests present were two other out-of-town visitors, Mrs. Dunn, of Port Alberni, and her son Eric, and Harry Bok, the Dutch writer, who has been visiting here for some time.

NUN RETURNS TO FAR NORTH

Sister Mary Eulalie Leaving Today for Holy Cross Mission, Alaska

Only a great love of teaching and a true missionary spirit could tempt the average man or woman so far off the beaten paths of civilization as the Sisters of St. Ann and the Jesuits who conduct the school for Eskimos and halfbreeds at Holy Cross, on the Yukon River, Alaska. St. Ann's Convent, Victoria, for the past few days has had as guest Sister Mary Eulalie, one of the nuns from the Holy Cross Mission School, who is leaving for her remote Alaska home after nearly two months' absence, during which she has visited the Mother House, Lachine. It is eleven years since she left this training school to go into the Northern country to share with other sisters of the order the responsibilities and pleasures of a life which to them has its rich rewards in the knowledge of necessary work well done.

Translated into terms of time, Holy Cross, Alaska, is farther from Victoria than Palestine in Asia. This indicates the significance of the journey made by Sister Mary Eulalie when she came out from the North two months ago, for it took twenty-one days to make the trip from the mission school to Vancouver.

"And it will be twenty days or so before I reach home," she told a Colonist reporter who interviewed her yesterday at St. Ann's Convent.

LONG WINTERS
In answer to many questions she told about the interesting life at the mission. Founded about fifty years ago by the Jesuits, the school at first had only a handful of children taught by the priests. The work grew, however, as more orphans were found to require care and schooling, and the Sisters of St. Ann, one of the greatest Catholic teaching orders of this continent, were sent for to assist with the undertaking. Today the school, one part of which is in charge of the Sisters, the other part in charge of the Jesuits, has eleven nuns and five brothers, the superior of the former being Sister Mary Perpetua, Help and the latter Father Manager. About 160 Eskimo children, ranging in age from two or three years to twenty or more, live at the mission. They are taught all manner of useful things, beginning with the "three R's" and including the manual arts, such as cooking and sewing for the girls and carpentry and farming for the boys.

"We grow great crops of potatoes, carrots and other vegetables," Sister Mary Eulalie reported.

FROZEN YUKON
This may sound strange to anyone who has heard the stories of "The Frozen Yukon." Impressive pictures of the great river choked with enormous ice-floes during the "break-up" in late May or early June have still further emphasized this impression of a forbiddingly cold Northern land where the growing of vegetables should be an impossibility. But once the ice begins to move out, it vanishes quickly, and weeks of wonderful sunshine and light nights during which the growth goes on at an amazing pace, crops mature rapidly, and before the frosts come and the river freezes over again in late October a good harvest of vegetables is stored away for winter use.

It is about 1,700 miles from Holy Cross down to the mouth of the Yukon. It took six days by boat to make the trip as far as Nainana, and another two days from there to Seward, by train. At Seward, Sister Mary Eulalie transferred once more to boat to make the voyage to Juneau, where she finally, after a four days' wait, was able to go aboard the boat for Victoria.

INFREQUENT TRIPS
Mail reaches the Holy Cross Mission much more frequently than one would expect from the foregoing, being delivered by dog team about every two weeks through the winter. The mission is also able to keep in fairly close contact with the outer world through the Government radio station.

The radio has been of great service in bringing the airplanes up from Juneau on several occasions when emergency cases have required treatment. Sometimes, Sister Mary Eulalie reports, the planes are sent for two or three times a month, and they always bring some interesting news of the outside world.

Holy Cross Mission is the centre of a little community of about thirty-five families, who make their living by fishing and by trapping lynx, fox and muskrat. The mission itself is practically self-supporting, for in addition to the vegetables and other farm products which they grow on their own land, they have an infinite supply of fish and game to add to their larder. Wild raspberries and blueberries constitute their principal fruit supply.

OTHER SISTERS
Two other Sisters from the Far North have been staying at St. Ann's Convent recently. One of these, Sister Mary Antonia, superior of the hospital at Dawson for the past year, is returning to the Yukon country today by the same boat which carries Sister Mary Eulalie. Sister Mary Antonia was the superior at the Holy Cross Mission for six years, she, too, has an affection for the school.

Sister Mary Corde du Jesus, who has come down to St. Ann's Convent to spend a year, was at Holy Cross Mission two years ago when she broke her thigh and had to be carried out by airplane, a seven hours' trip, for hospital treatment at Fairbanks. This undoubtedly saved her life, and she returned to the mission to carry on her duties for another long period before coming down this summer to Victoria.

CHANGING PLAN FOR CAMPAIGN

Relief Committee Members Not Satisfied With Results — Big Meeting Thursday

The Victoria Citizens' Unemployed Fund organization will be reconstructed to meet the popular will of the people. This decision was reached yesterday, when the executive committee met to discuss reports of canvassers, which included forcible expressions of opinion given by many citizens whose financial support was solicited.

"It is glaringly apparent that the movement, in its present form, is not acceptable to the majority, and radical changes will have to be made," stated a representative of the committee. "We are asking for public support, financial, moral and active, and the public will be asked to take part in formulating new plans covering collection and distribution."

ACTION NEEDED
"Victoria is more fortunate than many other Canadian cities, but it is useless to evade the fact that a serious condition exists, which may become more serious if intelligent and sympathetic action is not taken without delay."

The citizens' committee is not presuming to offer a solution of the unemployment problem. Its object is to relieve distress resulting from that condition; and in words as plain as it is wise to use, it desired to stress the fact that a grave responsibility rests upon the shoulders of the individual in these troubled times. Governments are hedged by legislative restrictions, but the individual is a free agent and can take fitting action while Government measures are still matters for discussion.

UNEMPLOYED WOMEN
A meeting will be held in the City Hall, Thursday, at 8 o'clock. Consideration will be given to the question of unemployed women in the scheme of relief, and many other matters of importance to employed and unemployed will be discussed. All social, business, religious and patriotic organizations are asked to send delegates.

In the meantime canvassing is proceeding with an inadequate force of workers. Any man or woman willing to help is asked to call on Fred Landenberg, campaign manager at headquarters, View and Broad Streets, or telephone G 4212. Contributions may be left at that office or with the treasurer, E. C. Smith, City Hall.

REESE BROWN FREE ON BAIL OF \$20,000

SEATTLE, Aug. 18 (AP).—Charged in two indictments with concealing his income when making his income tax returns and conspiring with Mrs. Sarah E. Smith to conceal her assets from the Internal Revenue collector, Reese R. Brown, Spokane and Seattle real estate man, pleaded guilty here today before Federal Judge Jeremiah Netter.

His attorney was given until August 27 in which to file demurrers. Brown has posted \$20,000 cash bail, and was granted permission to leave the jurisdiction of the court for not to exceed sixty days. He explained he had to go to Montana and Chicago on business.

DUAL CURRENCY WOULD BENEFIT WORLD TRADE MINISTER MAINTAINS

Continued from Page 1
occupying the attention of world financiers. The Canadian minister not only advanced the problem, but suggested a remedy which has been receiving the study of bankers and economists ever since. Credit to Hon. H. H. Stevens for having initiated the concentration of thought upon the advantages of a bi-monetary system was publicly given when, a few months ago, discussions were conducted in United States relative to a huge silver loan to China.

ABANDONED SILVER
Civilized countries until a few years ago operated on the dual system of currency, accepting both gold and silver in payment of debts, while some countries continued to remain exclusively on a silver basis. Germany's insistence that indemnities exacted from France after the Franco-Prussian war be paid entirely in gold was the first radical change in a system that had previously proved satisfactory. Gradually the gold standard advanced its hold and silver receded as a medium of international exchange, the minister pointed out.

This continued, and the ability of the silver currency countries to purchase from the producing gold standard nations declined, until nations, such as China and India, which had formerly been advantageous markets for manufacturing nations, found it more and more difficult to buy the commodities that they desired, and which the producing communities were anxious to sell. Where formerly trade could be carried on with mutual satisfaction between the gold and silver banking nations, the gap between the currency values widened until at last it took from five to six times the amount of silver to purchase similar commodities than it did when there existed that parity which was reflected in the exchange of nations.

INDIA CHANGED
India, in a desperate effort to rectify conditions and help herself, went on the gold standard, thereby causing a collapse of the quoted price for silver, and further increasing the disparity of values. The minister pointed out that the purpose of the proposed plan was to relieve the congestion of manufactured goods.

Just what the proper ratio of silver to gold should be, Mr. Stevens is not prepared to say, it being a matter that must be determined by international bankers and by governments. If in the opinion of the minister, who has made a careful study of the whole matter, and has had the opportunity to discuss the subject with workmen, bankers and economists all the way from Vancouver to London, Great Britain, Canada and United States would take the lead in assisting in the rehabilitation of China, the largest single unit now on the silver basis, and at the same time announce the acceptance of silver as a standard, silver, at a definite ratio to gold, a lead to the world and to returned prosperity would be given.

WOULD SOLVE PROBLEM
It would mean that nations with an abundance of silver—now unable to buy in bulk from gold-standard countries—would be enabled to return to the list of purchasing nations. The United States and Great Britain would benefit by their increased sales, with concomitant increase of employment.

While the minister is careful to point out, the question is one that requires careful study and analysis and is still more or less within the realm of attractive speculation, which has obtained many advocates, he regards as significant the fact that Mexico has, within the past month, definitely established the price of silver.

While Hon. Mr. Stevens sees in the acceptance of silver as a medium of international exchange a continuing cure for unemployment, he is confident that the present depression can not continue for long, and envisions an improvement in conditions within a short time. It is to mitigate future periods of depression that he is interesting himself and others in the silver question.

Obituary
STEWART—The remains of Margaret Stewart, who passed away on Monday last, will be conveyed by Hayward's B.C. Funeral Company this morning to the family residence, 1308 Burrell Avenue. The cortege will leave this address tomorrow morning at 8:45 o'clock, proceeding to St. Andrew's Cathedral, where Rev. Father Evans will celebrate Mass at 9 o'clock. Interment will be made in the family plot at Ross Bay Cemetery.

TADDEI—There passed away at St. Joseph's Hospital yesterday morning, Antonio Taddei. The deceased was born in Italy, seventy-six years ago, and had been a resident of this city for the past forty years, his late residence being Herald Street. He is survived by two daughters, Mrs. A. R. Nymen, Vancouver, and Mrs. Rose Wolf, Victoria; also three sons, Arthur, Henry and Walter, all of this city. The remains are resting at Hayward's B.C. Funeral Company's Chapel, from where the cortege will leave at 8:50 o'clock Friday morning, proceeding to St. Andrew's Cathedral, where Rev. Father Evans will celebrate Mass at 9 o'clock. Interment will be made in Ross Bay Cemetery.

ORR—The remains of Archibald Belmont Orr, who passed away on Saturday last, were laid to rest yesterday afternoon, service being conducted at Hayward's B.C. Funeral Company's Chapel at 2 o'clock by Rev. John Robson. The deceased was covered with beautiful floral designs, as well as being draped with the Union Jack. The friends present sang the hymn, "Gather at the Father's Table." A Wilson represented the Department of Pensions, and the following acted as pallbearers: S. E. Lawson, F. J. Ford, D. A. A. Clever, F. C. Scott, L. Hawke and C. W. Boden. Interment was made in Royal Oak Burial Park.

CROWTHER—The funeral of George Crowther will take place this afternoon at 2 o'clock, from McCall Bros' Funeral Home. Rev. M. S. Richardson will conduct the service, after which interment will be made in the family plot at Ross Bay Cemetery.

BISHOP DUE TOMORROW

Rt. Rev. A. F. Winnington-Ingram, of London, Has Busy Programme

Rt. Rev. A. F. Winnington-Ingram, Bishop of London, who is making a tour of Canada, will arrive in Victoria on tomorrow afternoon's boat from Vancouver. A full programme has already been drawn up for his entertainment while here. This will begin within a few minutes of his arrival, with a garden party which has been arranged by the Bishop of Columbia and Mrs. Schofield to take place at Bishop's Close.

The same evening he will be entertained at a private dinner party. On Friday morning he will join a foursome at golf at the Colwood links, other members of the foursome to be Bishop Remington, who is visiting here at the present time, Bishop Schofield, and Joseph Sayward. In the afternoon the distinguished visitor will visit Hatley Park, and in the evening he will be the guest of the Canadian Club at dinner at the Empress Hotel.

On Saturday he will probably go fishing at Brentwood, Captain Troup having put his yacht at the Bishop's disposal for the day. On Sunday he will preach both morning and evening at the Cathedral, and will leave early on Monday morning for Nanaimo, where he will officiate at the laying of the foundation stone of the new St. Paul's Church early in the afternoon before proceeding to Vancouver.

The Bishop arrived in Vancouver yesterday morning over Canadian National Railways, and after a pleasant holiday at Jasper Park, he looked splendidly fit as he stepped off the train. He addressed the Canadian Club in Vancouver yesterday. The Bishop plans to return East during the latter part of next week.

right. Lieutenant Brinton, a tall, young twenty-four-year-old officer, the youngest of the British speed group, jumped into a launch and was taken out to the plane, which he was to fly for the first time.

The plane skimmed over the water, attaining a speed of perhaps 100 miles an hour, and for a brief second it seemed to rise into the air. Then it fell back, sending up a glittering cascade of water, and bounded about into the air before diving headlong into the sea.

FLOATS TORN OFF
Launches scurried to its aid and the shocked watchers on the shore, two miles and a half away, saw the plane's floats, which were torn from the wings, come to the surface.

Fellow officers dived under the plane and found Lieutenant Brinton's body still strapped in the cockpit, but it was impossible to remove it until the plane was towed ashore.

Lieutenant Brinton was the only unmarried man in the high speed flight group, and had gained his place on the team only last Monday.

MANY GLACIERS
ARE RECEDINGNotable Ice Beds Along
C.P.R. Found by Measurement to be Shrinking

By ARTHUR O. WHEELER

Following up observations previously made of glaciers along the Canadian Pacific Railway, at the close of the Alpine Club's camp at Prospectors Valley, this month, the President, H. E. Sampson, of Regina, and the honorary president, A. O. Wheeler, of Sidney, went to Mount Robson to ascertain the amount of recession of the Robson Glacier. Observations were first made in 1911, at the time of the Alpine Club of Canada's expedition to explore the Mount Robson region. The expedition was then accompanied by a party from the Smithsonian Institution of Washington, D.C.

Subsequently the measurements have been checked twice, namely, in 1913, at the time of the club's camp at Robson Pass, and again in 1922 by H. P. Lambert, of the Topographical Survey of Canada, a member of the club.

From 1911 to 1913 there had been a retreat of thirty feet, and from 1913 to 1922 a further retreat of an average yearly retreat of twenty-four feet for eleven years.

MARKS READABLE

Using the same marks marked in 1911, on which the marks were still distinctly readable, measurements were now made and it was found that in the elapsed twenty years the ice had retreated 667 feet, or an average of nearly forty-five feet per year as compared with 265 feet for the preceding eleven years.

There was also, in addition to a general shrinkage, a very remarkable change. In 1911 the ice foot of the glacier had sent out two streams, one flowing northward via the Smoky River to the Arctic Ocean, and the other southward via the Fraser River to the Pacific.

Flowing to the Pacific had issued from a fine ice cave. This was all changed. The cave had disappeared and the ice had receded so far on its eastern side, behind a rock rib, that the stream to the Arctic no longer existed, all the runoff of the ice being carried southward to the Pacific. This disposition clearly placed the Great Divide of the Rockies east of the Robson Glacier and Mount Robson undeniably within the Province of British Columbia. New rocks were now marked closer to the ice for future reference, and photographs for comparison with previous ones were taken.

ICEFALL SHRINKS

The Tumbling Glacier, which falls very steeply for five thousand feet from the icefield below the final peak of Mt. Robson and buries its nose in the waters of Berg Lake, appeared to have shrunk quite a lot in width of its icefall and to have lost much of its solid, precipitous front. It appeared to be active as ever, for while at the Hargreaves Bros' cabins, which are at the east end of Berg Lake directly opposite the icefall, huge blocks of ice came crashing down into the lake, sending up columns of water and spray many feet into the air.

From the Hargreaves' cabins, which provide accommodation for tourists, a most marvelous view is to be seen when the weather is clear. The ice-capped crest of Mt. Robson rises in a sheer white precipice to very nearly 13,000 feet above sea level. Across a narrow snow field the snow-covered heights of the Helmet rise to over 11,000 feet, and from the base of its final dome the gigantic icefall of the Tumbling Glacier falls five thousand feet in a grotesque-shaped icebergs formed from masses that are avalanched from this tremendously active glacier with cannon-like reports.

ROBSON DANGERS

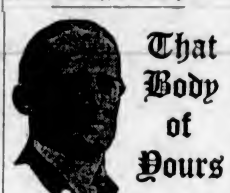

It is to be wondered whether the changes that are taking place in ice conditions have affected the vulnerability of the mountain climbers. Mt. Robson has not been climbed this year up to the time of our observations. The great ice

fall which has to be surmounted, had presented too many dangers from falling ice blocks. Three times this formidable barrier was attempted by Miss Kate Gardiner, of Warrington, England, a well-known woman alpinist, who has done much climbing in the Canadian Rockies and elsewhere. She was led by the Swiss guides, Hans and Henri Pulver, of the Canadian National Railways. Three times the party, as strong as one as could be had, failed to scale the ice wall. The last time, in desperation, Hans, leading, said, "I will go if you tell me to. We may get through, but I may be killed or we may be killed." The woman declined to assume the responsibility and the attempt failed again.

Observations made of the icefall, Asulkan, Yoho and Victoria glaciers prior to the Alpine Club camp, and of the Robson Glacier after it, tend strongly to show a greatly increased recession of the ice within the past ten years; also a big decrease in volume, as shown by the uncovering of broad rock faces and cliffs where previously the ice was supposed to lie to the depth of hundreds of feet. The results would seem to bear out the theory of a very distinct change to milder climatic conditions, and the fact that the ice is melting and retreating in all directions towards the climax of its cycle.

AIMING AT THE IDEAL WEIGHT

Notwithstanding all that physicians have told their patients about the danger of taking short cuts to weight reduction, it would seem that many of these overweight folk are willing to try anything rather than the simple but effective method of reducing the amount of food eaten.

One of these short methods is the "lightening" diet, which has done so much in fact that its effects have been likened to a disastrous war. Another is the "thyroid" extract, which acts on the tissues and burns them up just as a forced draft on a stove or furnace would burn up the coal. This method, as mentioned before, is of doubtful value and should only be used for a short time because it can do damage to this type of case if carried past a certain point.

But for the ordinary overweight individual whose overweight is due to overeating and underexercising (and this type numbers ninety-nine in every hundred cases), the use of thyroid extract causes an undue strain on the body.

The ideal weight for each patient, considering height and age, is estimated, and the exact amount of food necessary for that weight (not their actual weight) was given. Thus a patient weighing 150 pounds should only weigh 120 pounds, that should only weigh 120 pounds.

Dr. F. A. Evans, Pittsburgh, had a large group of patients treated by this method. The ideal weight for each patient, considering height and age, is estimated, and the exact amount of food necessary for that weight (not their actual weight) was given. Thus a patient weighing 150 pounds should only weigh 120 pounds, that should only weigh 120 pounds.

Weddings

BASSETT-O'NEILL
Of interest to Victorians will be the news of the marriage in Seattle of Sheila Marie, eldest daughter of Mrs. M. E. O'Neill and the late Dr. O'Neill, to Harold Vernon, second son of Mr. and Mrs. W. F. Bassett, of 1916 Shakespeare Street. The wedding took place quietly at noon on Monday in the presence of immediate relatives, the ceremony being performed by St. Clement's Episcopal Church by Rev. E. C. Prichard.

The bride was given in marriage by Dr. Stanley Jones, of Victoria, her attendant being Miss Alfred Food, as matron of honor and Miss E. D. King, of Vancouver. Mr. Alfred Food supported the groom.

The bride looked lovely in her dress of silk lace draped in oyster shade with hat to match and carrying a bouquet of roses and lilies of the valley, the matron of honor wearing a silk lace dress in pale lemon shade with hat en suite and corsage bouquet of roses and mauve sweet peas.

The young couple are native daughter and son, the bride being a former nurse at St. Joseph's Hospital, and the groom being a member of the Kinross Club and well known locally in musical circles. After a trip motoring in the States and in Vancouver, Mr. and Mrs. Bassett will reside at 1431 Richardson Street.

FITTON-WILLIAMS
Beautifully decorated with asters, sweet peas and carnations in shades of pink, white and blue, St. Matthias' Church, Poul Bay, was filled to the doors last night at 8 o'clock for the wedding of Alice, daughter of the late Mr. John Williams, and of Mrs. Williams, South Wales, and Mr. Robert Thomas Fitton, son of the late Mr. and Mrs. William Fitton, of Breckonshire, Wales. Rev. A. G. E. Munson performed the ceremony and the wedding march was played by Mr. White. The bride was given in marriage by her brother-in-law, Mr. T. C. Jones, and she wore a charming robe of orchid georgette and a large picture hat of sand tulle and matching shoes, and held a shower bouquet of white carnations and pink and mauve sweet peas. Her only attendant was her niece, Miss Jessie Jones, in a frock of daffodil yellow silk and a large hat to tone. She carried a bouquet similar to that of the bride. The bridesmaids supported the groom and the ushers were Mr. Edward Jones and Mr. Jack Carter. A reception followed at the home of Mr. and Mrs. T. C. Jones, 1619 Fairfield Road, where the bride and groom stood beneath a white bell and garlands of asparagus fern. Island Social Notes

Salt Spring Island
The dance organized by the Salt Spring platoon of the 2nd Battalion, Canadian Scottish, and held last Friday evening at Ganges, proved a great success and was enjoyed by the 250 guests who attended and filled to capacity the Mahon Hall. The building was effectively decorated with flags loaned from the barracks. The 16th Scottish Pipe Band was present and played several selections during the evening. About sixty guests came from Victoria, including Major Bapty and Lieutenant Ian Douglas, whose dancing of the reel to the bagpipes, played by Donald Cameron, proved a most popular feature of the evening's entertainment. Lieutenant Douglas was present with the Saanich platoon; Lieutenant Green, with the Royal Oak and Lieutenant Georgetown with the Metchoin. A five-piece orchestra from Victoria supplied the music for the dance. Supper arrangements were in the hands of Mr. Frank Stevens.

Clubs and Societies

W.R.A. Meeting
The regular meeting of the Women's Benefit Association was held on Monday evening in the K. of C. Hall, Mrs. Veitch presiding, owing to the absence of Mrs. Todd, president. Members were pleased to welcome Mrs. Mary Richmond, a well-known pioneer of Victoria, but now a resident of Los Angeles. Mrs. O. Laing succeeded Mrs. Charles as chairman and convener of the sick committee. Reports from headquarters were received with great appreciation, as they revealed the surprising growth and splendid financial standing of the association. The Girls' Club will hold a garden party at the home of Mrs. Trowdale on August 26. All friends and members are cordially invited. After completion of the business, a social evening of cards and games was held, followed by refreshments. Prize winners were Miss Hildbrand, Mrs. Taylor, Mrs. Clifford, and for the contest, Mrs. McAllister.

BISHOP DEPLORES PETTING PARTIES

Rt. Rev. A. F. Winnington-Ingram Speaks of Youth of Today in Addressing Vancouver Club

VANCOUVER, Aug. 18 (CP).—In an address before the Women's Canadian Club here today, Rt. Rev. A. F. Winnington-Ingram, Lord Bishop of London, compared the deportment of the young people of today with those of his own generation, and "believed the change which had taken place to be a good thing." This new freedom between the sexes in social life and education had brought about a splendid spirit of comradeship, but many dangers lurked in "petting parties" and the unrestrained mingling of the sexes, he declared. The speaker made a strong plea for purity in youth, sacredness of the marriage tie and the sanctity of the home, with a sincere religious background for children. "Don't foul your paradise before it comes to you," His Lordship said. "Petting parties are vulgar, they take away the bloom from the beauty of youth, and cause many regrets when marriage is contemplated."

Last of Quadruplets Has Died in Vancouver

VANCOUVER, Aug. 18 (CP).—The last of Vancouver's only quadruplets is dead. Four baby girls were born to Mrs. Homer C. Philley yesterday, but three of them died soon after birth. The fourth died late last night. Quadruplets had never been born in Vancouver before.

Third Victoria Troop to Hold Garden Party

Commemorating twenty-one years of scouting, the 3rd Victoria (St. Barnabas) Boy Scout Troop and Wolf Cub Pack will hold a garden party on Saturday, September 5, in the adjoining gardens of Mesdames J. H. Todd and J. H. Gillespie, on Fairfield Road. The affair will be formally opened by Lieutenant-Governor J. W. Fordham Johnson at 2 o'clock.

The 3rd Troop is the oldest in the city and an extensive programme has been prepared for the fete. It is requested by Scoutmaster W. G. Lythgoe that any of the prewar members of the troop get in touch with him by telephoning G 1191, in order that a special part of the programme may be set aside for them.

Displays of first aid signalling and bridge-building will be contributed by the Scouts of the troop, while the Cubs under Cubmistress Mrs. Philips, will stage a jungle dance. Another feature of the afternoon will be solo dances by Miss Dorothy Bird, who has just returned from the Old Country, where she took an extensive course in this work.

The gardens have been specially prepared for the affair and those who will participate have worked untiringly in order to make the party a success.

Pimples Over Face Caused Severe Pain. Cuticura Healed.

"I had pimples and blackheads for nearly two years. The pimples were scattered all over my face and were hard, large and red, causing severe pain. They itched and burned and when I scratched it caused eruptions. The irritation prevented me from sleeping. I used different remedies but they did not help any. A friend recommended Cuticura Soap and Ointment so I purchased some, and after using three cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." (Signed) Steve Barowsk, Crowtherview, Sask.

Soap 25c. Ointment 35c and 50c. Sold everywhere. Sample each free. Address Canadian Depot: J. T. Watt Company Limited, Montreal.

DOING MUCH PUBLIC WORK

Port Alberni Busy With Paving Scheme and City Improvements

PORT ALBERNI, Aug. 18.—A large amount of public work is now being done in this city, and six by-laws were read at last evening's meeting of the city council regarding further construction under the local improvement plan. The largest scheme is the paving of First Avenue, which, together with the sidewalks and a new water system, will amount to the sum of \$10,000, according to the engineer's estimate. The other local improvements are of a lesser nature, namely, the widening of the sidewalks.

The works department was authorized to purchase a jack hammer and drill for rock work, costing \$400. A tender was also let to Messrs Watson & Bacon for certain steel bridge work to support the new pipe line which was constructed last year. This will amount to \$5,015.

TO NUMBER HOUSES
It was decided to have the houses in the city properly numbered. The matter of the destruction and reconstruction of the city incinerator was again brought before the council. Some months ago several over-zealous citizens decided that the brick with which the incinerator was built would make good building material for chimneys, and proceeded to cart the brick away.

The police were notified, and after locating the brick the council decided that no action would be taken if the miscreants would rebuild the incinerator. The sanitary inspector reported last evening that it had not been fully built, although all those concerned stated that they had returned all the brick taken away. The matter was again referred to the police for action. During the discussion of this matter, Alderman Fleming stated that the Mayor was trying to shield the culprits. This led to a spirited discussion in which the majority of the aldermen took part.

WILL REPAIR ROADS
A local logging concern was

STOPPED DURING THE WEEK FROM HAULING LOGS THROUGH THE CITY AS ITS TRUCKS WERE DOING GREAT DAMAGE TO THE ROADS. IN SOME PLACES THE FURROWS WERE OVER A FOOT DEEP. ALDERMAN MACMILLAN REPORTED THAT THE LOGGERS HAD AGREED, WITH THE HELP OF THE CITY TRUCKS, TO REPAIR THE ROADS AND ON THIS UNDERSTANDING THE LOGGING OPERATIONS WERE PERMITTED TO CONTINUE.

During the evening Mayor Kendall and Keith Wiles gave a report on the interview with Hon. R. W. Bruhn at Victoria regarding the Coxon Road.

J. C. LANG DIES AT SALTSRING

Respected Resident Passes After Long Illness—Was Responsible for Progress on Island

GANGES, Aug. 18.—Saltspring Island residents are mourning the passing of a highly respected resident in the person of John Charles Lang, who succumbed to a long illness in the Gulf Islands Hospital. Born in Cornwall seventy-six years ago, Mr. Lang came to Saltspring Island twenty years ago and acquired a large acreage known as Fernwood, on North Saltspring. He was settled with his family. He soon associated himself with all progressive and public movements, and was responsible for the organization of the scheme to supply Ganges with water from Maxwell Lake, becoming president of the Ganges Water & Power Company.

Mr. Lang is survived by one son, Thomas Lang, of Lisgard, Cornwall, and five daughters, Mrs. Hutchinson, of Torquay, Devonshire; Mrs. A. V. Cartwright, and Mrs. B. C. Morris, of Saltspring; Mrs. C. E. Thompson, of Shanghai, and Miss Gertrude Lang, of Victoria.

Mr. Lang was universally respected by all who were privileged to know him, and was regarded as a fine type of citizen. He was very well known in Victoria, where he had been in the habit of spending considerable time each winter.

The funeral will take place today, in Victoria, at 11 a.m., from Hayward's B.C. Undertaking Parlors, with Rev. J. B. A. Bastin officiating. Interment will be in Royal Oak Cemetery. The pallbearers will be Major A. H. Buck, Sidney; W. Scott Ritchie and R. Yates, Victoria; A. J. Smith, Joseph Akerman, and T. S. Speed, Saltspring Island.

COUNCIL DEALS WITH REPORTS

Courtenay Body Appoints Resolutions Committee for Good Roads Convention

COURTENAY, Aug. 18.—Business-like methods of procedure enabled the city council to complete its agenda in good time on Monday night, in spite of many details. A resolutions committee, composed of Aldermen Wallis, Thomson and Ball, was appointed in connection with the fifth annual convention of the Good Roads League and the Union of British Columbia Municipalities to be held at New Westminster on September 14 and 15.

ROAD DELEGATION
An interesting report was submitted by Mayor MacIntyre on the recent visit to Victoria when mayors and presidents of the Upper Island Boards of Trade and members of the Provincial Government in connection with the proposed Alberni-Cumberland road.

The delegation was sympathetic received but it was intimated that work of this nature would largely depend on the attitude taken by the Federal Government. Considerable interest was manifested in the Forbidden Plateau by those seen in Victoria and an official invitation will be sent from this city to Premier S. F. Tolmie and Hon. R. Bruhn, Minister of Public Works, to join the party leaving here for the plateau about the first of September.

The trip will be planned so as not to interfere with the Fall Fair here on Labor Day, September 7. C. S. Wood submitted an interesting report covering the operation of "movie" photographers in the plateau recently when a quantity of pictures in natural colors were taken under ideal conditions. These pictures will be shown all over Canada and elsewhere.

BOARD INVITED TO STONE LAYING

Nanaimo Council Receives Correspondence and Deals With Various Departmental Reports

NANAIMO, Aug. 18.—At the regular meeting of the local council, last evening, a letter was received from the rector and wardens of St. Paul's Church, extending an invitation to the Mayor and aldermen to attend the laying of the foundation stone of the new church by the Bishop of London on August 24.

A petition from the landowners abutting on the business section of the city for an ornamental lighting system was, on motion of Alderman Dixon, accepted.

The city engineer reported having appointed W. H. Hall as concrete inspector on the construction of the South Park dam. Mr. Hall comes direct from Rusk, where he was employed in a similar capacity by the B.C. Electric Railway Company. The engineer's report was received and endorsed. City engineer Graham also presented a report on the progress of the South Park's pipe line. His weekly report of men employed at the new dam, as at August 15, contained the names of forty-two Nanaimo residents out of a total of sixty-four.

The city at the present time is in a state of alarm, according to the report of Medical Health Officer Drysdale.

A by-law to authorize the construction and installation of a mental street lighting upon both sides of the business streets of the city passed its third reading last evening.

FAVOR STARTING SASEENOS SCHOOL

SOOKE, Aug. 17.—A meeting for the purpose of discussing the Saseenos School question, attended by Hon. Joshua Hinchliffe, Minister of Education, was one of the largest of its kind ever held in Sooke. H. A. Campbell occupied the chair. The establishment of a school at Saseenos has for the last several years been brought up at the annual meeting of the Sooke School Board. Following the filing of a petition, which was presented and read at a meeting of the ratepayers on Saturday evening, a vote was taken, with a good majority in favor of establishing a school in the Saseenos district.

A. E. Carmichael, who spoke in favor of the school, stated that ground had already been donated for that purpose.

Another meeting for the purpose of voting the necessary funds, will be called by the Sooke School Board, under whose direction the Saseenos School will be established.

Nanaimo Obituary

NANAIMO, Aug. 18.—Mrs. Kate Combs, a former resident of Nanaimo, died yesterday at the residence of her son William in Vancouver. She is survived by two other sons, Bert and Howard. The funeral will take place on Thursday.

Mrs. Isabel Knowles, well-known native daughter of Nanaimo, aged thirty-six, has died. Death was apparently due to heart failure. She is survived by a daughter, May, her mother, Mrs. J. Gillespie, and one sister, Mrs. David John, of Nanaimo.

The remains of the late Mrs. R. Pollock were laid to rest in Nanaimo Cemetery yesterday afternoon, with Rev. John McTear officiating in the presence of a large attendance of friends of the family. The pallbearers were Senator A. E. Planta, Dr. G. A. B. Hall, George Johnson, J. F. Doyle, J. M. Rudd and J. Shaw.

Tinea trichophyton gives half of Canada "ATHLETE'S FOOT"

On locker-room, gymnasium and bathroom floors, on the wet edges of swimming pools and showers—even on hotel bath-mats—lurks tinea trichophyton, the ringworm parasite that causes "Athlete's Foot".

And from such places it is carried into countless Canadian homes every day. Be on your guard against this stealthy infection! It may first show itself as a rash or tiny itching blisters between your smaller toes—or it may take the form of skin cracks, or moist, white scabbiness, or unnatural dryness with little scales—in any of these cases it is most probably "Athlete's Foot".

Absorbine Jr. Kills This Garm Exhaustive laboratory tests prove that Absorbine Jr. penetrates deeply into flesh-like tissues and that it quickly kills tinea trichophyton, the ringworm germ, wherever it penetrates.

Protect yourself; protect your family. At the first hint of infection douse your feet morning and night

B.C. BALL PLAY-OFFS TO OPEN HERE SATURDAY

Fred Perry Downs Wilmer Allison In Five-Set Match

British Tennis Star Puts Out Strong American Player in Reaching Quarters at Newport—Hughes Defeated by Van Ryn

NEWPORT, R.I., Aug. 18 (AP).—Two of the seeded players and half of the British invasion were cut off today in play that reduced the Newport Casino tennis tournament to the quarter-finals stage.

Clifford Buter, of New Orleans, and Wilmer Allison, former Davis Cup player, were the domestic stars who suffered upsets, and G. Patrick Hughes, of England, accompanied them into the discard.

Hughes went down before Johnny Van Ryn, 6-2, 6-3, 1-6, 6-2.

The British star, Frederick J. Perry, defeated Allison, 4-6, 6-0, 3-6, 6-1, 6-2.

Buter bowed out in the second round, dropping a 6-4, 6-4, decision to J. Gilbert Hall, of East Orange, N.J., who was eliminated by Bryan Grant, of Atlanta, 6-3, 6-4, 7-5, in a third round clash.

Champion Johnny Doe again played below form expected of a national title, but managed to qualify for the last eight brackets by vanquishing Edward J. Burns, of New York, 7-5, 6-3, 6-4.

Sidney Wood, Davis Cup singles player, went into an extra set with Gregory Mangin, of Newark, to win, 7-5, 4-6, 6-1, 6-3.

The performance placed Wood in line for a quarter-final battle with the national champion.

George Lott defeated Berkeley Bell, 6-3, 6-4, 8-10, 6-6, moving into a position for an encounter with Perry.

"Cotton" Brynjolfson Being Widely Sought for New Lacrosse Code

EASTERN SQUADS SEEK SERVICES

"COTTON" BRYNJOLFSON

Ed "Cotton" Brynjolfson, one of the finest lacrosse players ever to don a uniform in Victoria, is being widely sought to take part in the new professional eight-man game, which is now enjoying great popularity through Canada and the United States.

Brynjolfson has received several offers from the East to try his hand at the new game, but he has spurned them all, saying that he is now around forty years of age, and figures that he has had enough of the gutted-stick game.

Brynjolfson's lacrosse career is well known to Victoria fans, and during his prime he was considered to be one of the best in Canada. He usually played third defence, and it was in that position that many of the plays which brought the local team through to victory were engineered.

LED FOUNDATION TEAM

Before the Great War, Brynjolfson's prowess as a gutted-stick artist were well known throughout the Dominion, but it was after the cessation of hostilities that he became more prominent. After serving with the Canadian Navy, "Cotton" received his discharge and joined the Foundation Company. Here Brynjolfson was instrumental in organizing the Foundation lacrosse team, which won the British Columbia championship without suffering a defeat, and then went through to win the world's championship at Winnipeg by scores enough to win a flock of lacrosse batties.

Brynjolfson played pro lacrosse with Con Jones' Vancouver team, but his war service automatically reinstated him into the amateur ranks.

Three years ago Brynjolfson hung up his lacrosse stick after playing four straight years with the champion Sons of Canada team.

Among the offers received to turn pro again was one from the Canadian leaders of the Eastern Pro League, and one from Vancouver.

In addition, to being a star lacrosse performer, Brynjolfson was a keen Rugby and soccer player. In the former game he played for eleven years with the I.B.A.A. team, and in the latter code with the North Wards and many other teams.

EXPLANATION FOR YESTERDAY'S RIPLEY CARTOON

The Seventeen-Domed Mosque of the Camel—The Djama Negu (Mosque of the Camel) in Tripoli, stands on the spot where Annan el Habb Hanum, the Prophet's mother-in-law, is reputed to have spent a night. The mosque more properly commemorates the presence of the venerable lady's saintly camel, and the curious domes to the number of seventeen, which surround the temple, resemble the camel's humps in shape. The position of the mother-in-law of the Prophet is exceptional in the high regard in which she is held by the faithful. The lot of the common run of mother-in-laws is an unenviable one in the East.

Seven British Net Stars Advance in U.S. Women's Meet

Betty Nuthall, Mrs. Sheppard-Baron, Phyllis Mudford, Dorothy Round and Mrs. Pittman Reach Last Sixteen—Mrs. Moody Tested

FOREST HILLS, N.Y., Aug. 18 (AP).—Close of the second day's play in the forty-fourth annual championship tennis tournament today found seven British players among the sixteen players gaining the third round.

Of the seven, only two were forced to extra sets before defeating their opponents. Mrs. D. C. Sheppard-Baron was carried to a 1-6, 6-3, 7-5 score, before emerging victor over Mianne Palfrey, sister of Sarah Palfrey, and Joan Ridley had to go three sets before downing Ruby Bishop, Los Angeles, 6-3, 4-6, 6-0.

Betty Nuthall disposed of Clara Greenspan, New York, in short time, 6-4, 6-0.

Helen Wills Moody had a battle on her last day, defeating Mary Grief, Kansas City, 6-2, 6-3. The Kansas girl gave Queen Helen a great battle but Helen's superior strategy proved the deciding point in the end.

HELEN JACOBS WINS

Helen Jacobs, California's No. 2 threat, moved into the third round, easily defeating Virginia Rice, Boston, 6-0, 6-2.

Two seeded American players, Mrs. John Van Ryn, Philadelphia, and Marjorie Morrill, Dedham, Mass., failed to survive their second-round matches. The former bowed to Sarah Palfrey, Sharon, Mass., 1-6, 8-6, 6-1, while Miss Morrill was forced to default to Alice Francis, of Orange, N.J., after the first match had been drawn, England won the second and thus takes the rubber. No batting was possible on account of rain on the first two days of the match. Play was possible late this afternoon. New Zealand won the loss and sent in England, who had made 234 for three wickets when time ended the match.

With completion of the second-round singles late in the day, play was started in the doubles.

Other summaries:

Phyllis Mudford, England, defeated Cecilia Riegel, Philadelphia, 6-1, 6-1.

Mrs. J. P. Pittman, England, defeated Eleanor Andrus, Stamford, Conn., 6-3, 6-2.

Dorothy Round, England, defeated Gracy Wheeler, Santa Monica, Calif., 6-1, 6-3.

Mrs. Ellen Bennett Whittingall, England, defeated Eleanor Cottman, Westbury, N.Y., 6-1, 6-0.

Mrs. Helen Wills Moody, San Francisco, defeated Mary Grief, Kansas City, 6-2, 6-3.

NEED FITCHERS

With a couple of first-class chucks added to their pitching staff, the antlered herd will be a hard squad to beat in the provincial series. Their inner defence is sound, while their outer patrol is one of the best in the province. The Elks are all heavy hitters and will be out to punish the offerings of the visiting pitchers from the start. Leo Holden, some star chucker, will join the Elks for the series.

In winning the Terminal flag, the beggie, Carter & White nine played great ball and are coming over here with a first-class reputation. They beat out the snappy Asahlas, who played here this season, to capture the bunting.

Yesterday the starting line-up of the Vancouver team was announced. Scott, rated as one of the coming stars in Vancouver, will be at second base, while Stewart will hold down the initial sack. McKissock, another promising player, will look after the hot corner and Johnstone, the main cog on the infield, will play shortstop. Fouchie will do the receiving, while McAdam is expected to go to the hillcock. N. Kay, W. Kay and Eddy, a trio of field ball retrievers, will patrol the outfield. Faulkner, a former local star, is their all-round utility player, and may be seen in action against the Elks.

The Elks will take the field with their usual squad and hope to take the visitors into camp so as to have something to work on when they play under lights on the Mainland. A record crowd is expected at the enclosure.

P.N.W. GOLF MEETING SET FOR SEPT. 12

Important Matters to Be Discussed at Annual Meeting at Seattle

BODY MAY DROP OPEN TOURNAMENT

VANCOUVER, Aug. 18.—Secretary M. A. Smith, of the Pacific Northwest Golf Association, has sent out notices announcing the annual meeting at the Seattle Golf Club, Saturday, September 12, when the 1931 tourney will be awarded and officers elected.

Paul Parsons, of Alderwood, Portland, has been nominated for the presidency, while President W. S. Charlton, of the British Columbia Golf Association, and Comte Jean de Suzannet, of Royal Colwood, Victoria, are the nominees for the vacancies on the directorate. Louis M. Dieker, of Bellingham, and E. D. Todd, of the Victoria Golf Club, are mentioned for the nominating committee, while J. A. Sayward, of Royal Colwood, is the nominee to the championship course committee.

Several important matters will be up for discussion, including: (a) The eligibility of handicap of women competitors. (b) Elimination of the open tourney from the annual programme and making no further contributions for the event. (c) Limitation of the cost of trophies to \$1,000 instead of \$2,000. (d) The charging of a gallery fee for the annual tourney.

THE ROAD BACK
(Concerning the comeback trails of Jack Dempsey and Benny Leonard.)
Since in their time they gave enough
Of what is known as high-class stuff
And very rarely threw a miff,
Here's to 'em.
They may soon find a hostile fin
Laid heavily against the chin,
But if they lose or if they win,
Here's to 'em.

The trail back is no flowered road
Of sun and stars, for in the code
The gray years make a heavy load
To carry;
For there are haunting ghosts that
throw
Their shadows over turf and snow,
Who whisper—"Long and long ago,
We knew you."

Yes, there are ghosts that mock and leer,
Gray ghosts of youth from some lost
year,
When legs were strong and eyes
were clear,
Remember?
When in the swirl the left hook
flashed,
The right cross struck and cut and
slashed
As at your feet some rival crashed—
Remember?

But since in time they've done their
part
With brawn and skill, with fist and
heart,
Along the road back, when they
start,
Here's to 'em.
They may not find the path again,
But when they shoot, no matter
when,
At least you'll see two fighting
men—
Here's to 'em.

THE TOUGHEST SPOT
Whatever happens later in a legal
way, Senor Campolo, of South
America, is in one of the toughest
spots the ring game knows today.
Jimmy Johnson has him matched
with Ernie Schaff late in August
and Madison Square Garden has
him matched with Charlie Retzlaff
early in September. So here it hap-
pens that the Andean peak from the
Far South, after spending a year
with almost no action, suddenly
finds himself all snarled up with
two of the best young heavyweights
the game has known in years.

And neither is on the gentle side
One of the two contests will be
wiped out by law, but whatever hap-
pens the other will be just as tough.
Schaff can do a lot of fighting and
so can Retzlaff. Schaff can punch
and take it, and so can the Duluth
Destroyer.

As remarked before, they are two
of the best that have come along
in some years, with Schaff the more
experienced fighter with something
to spare. Schaff knows more than
Retzlaff and is the better boxer, but
he doesn't throw his punches with
the same venom. Retzlaff strikes
like the cobra. He isn't interested
in a mere sting.

So whatever happens to the legal
side, Campolo might as well get
practicing.

Dad—Dad, what is the differ-
ence between a trade and a profes-
sion?
Dad—Oh, a trade is something
that you begin charging for while
practicing.

COLGATE SHINES IN FORDS' WIN

Pitches Fine Ball and Bats Hard as Team Defeats Automobiles by 5-2 Score

Playing a steady brand of ball behind the stellar pitching of Teddy Colgate, Fords kept in the running for the Twilight Baseball League pennant last night by defeating the Automobiles in the second game of the first round play-offs at the Royal Athletic Park, 5-2. The third and final fixture will be played Tuesday night and the winners will meet Taiyos, Japanese nine, for the championship, in a five-game series. Colgate was the shining light of this team's victory. Besides twirling a fine game, he collected three hits in three trips and scored a like number of runs. One of Colgate's safeties went for three bases, the only triple of the tussle. Bennison, Fords' third sacker, turned in a great performance at the hot corner, accepting a flock of chances without a miscue. Frank Moore, veteran ballplayer, patrolled centerfield for the winners and steadied the youngsters down.

Harry Pollard pitched a fine game for the mechanics, striking out eleven in six innings, but his support was poor.

Mrs. Thomas and Cliff Margison Win Net Honors

Mrs. Thomas and Cliff Margison captured the mixed doubles championship of the J.B.A.A. Tennis Club tourney by defeating Miss Cheer and Ivan Temple after a great three-set fixture, 6-4, 2-6, 6-4. Dave Miller captured the men's consolation singles by scoring a straight victory over Gordie Scott, 6-0, 6-3.

THE DOT CARTOONIST, BY GEORGE BELL

"Say, Fobe, is that a Derby? I'd call it a futurity." "I'm satisfied that it's a Derby and if you want a little more information on headgear, that pancake on your head is a . . ." (Kindly draw straight lines between the numbers.)

As everybody knows, the expression, "Kissing goes by favor," implies the selection of a person for a certain office, like that of a man for a maid's kiss, is a matter of personal choice, or favoritism rather than merit. In other words, the analogy between "kiss" and "choice" is because both are often domestic uses.

the reward of favor instead of just deserts.

However, the words "kiss" and "choice" are etymologically as well as logically connected. To kiss, in Anglo-Saxon, is "cysan" (klesan), and in German "kussen"; while to choose, in Anglo-Saxon, is "cosean" (koesan), and in Dutch "kiezen."

"The" international aircraft including many foreigners. Nearly among the features were trick fly exhibition in Stockholm, Sweden, 3,000 persons took passenger flights, including autogyro and amphibian plane proved a greater success than expected and during the fortnight the air demonstrations, and historic and peeped. In two weeks it was visible above the city seemed alive with modern displays of military and used by more than 80,000 persons, aircraft, single and in squadrons, commercial machines.

"Children of Dreams" Showing at Dominion, In Creation of Two Popular Producers

"Children of Dreams," the newest attraction at the Dominion Theatre, possesses a strange fascination—different—and at the same time universal—for it is the age-old

quest for love—and the age-old quest for fame. Oscar Hammerstein II—creator of words and lyrics for "Rose Marie," "Show Boat," "Sweet Adeline" and a host of other hits—chose the here-tofore unused locale of the California apple orchards at harvest time.

The story rings true—the scenes in Italy and in New York are realistic—but it is the sequences in the luxuriant orchards, with ragged romping children, scores of them—young people and old tripping the light fantastic to accordion and guitar—the wandering near-dead youths who arrive in camp in a quaint house-on-wheels—and proceed to win the hearts of everybody—including the audience.

Featured are Margaret Schilling and Paul Gregory, Broadway stars.
